

Printkee SEO Content Audit Report

Audit date: 23 September 2026

Scope: public website routes, route templates, static content modules, navigation, footer, and the live sitemap-data inventory. Admin, login, search, customizer, API, and blog authoring routes are excluded from the optimisation plan because they are non-indexable.

A. Executive summary

- Indexable inventory:** 8 category URLs, 40 subcategory URLs, 234 active product URLs, 12 brand URLs, 4 database blog URLs, 2 editorial guides, 6 location pages, and 10 core/static public pages. This is **316 currently enumerable dynamic URLs** plus static/editorial routes.
- Business model:** B2B corporate gifting and branded merchandise. Commercial priority belongs to category, subcategory, product, collection, Diwali, and contact routes.
- Strong content:** homepage, major category descriptions, Diwali guides, location pages, product template, and contact path.
- Safe improvements implemented:** 4 homepage contextual internal links; previous technical fixes are retained.
- Content not rewritten:** product facts, claims, pricing, delivery times, policies, database descriptions, and testimonials were deliberately preserved because their accuracy must be owned by the business.

B. Complete content inventory

URL / route	Page type	H1 / title source	Primary topic	Intent	Content status	FAQ / schema	Internal links	Action
/	Homepage	Hero H1	Corporate gifting and custom branding	Commercial investigation	Strong	FAQ; Organization/WebSite	Category, occasion, service, CTA links	Improved occasion links
/:category (8)	Category	API name / SEO config	Product family	Commercial investigation	Strong for categories with description data	Breadcrumb, FAQ where present	Subcategories and products	Reviewed
/:category/:subcategory (40)	Subcategory listing	SEO H1 / subcategory name	Product type	Commercial investigation	Mixed; data-backed descriptions where available	Breadcrumb, ItemList	Parent, products, related categories	Dynamic rendering retained
/:category/:subcategory/:product (234 active)	Product	Product name	Individual branded product	Transactional / enquiry	Template strong; database copy varies	Product/Breadcrumb/visible FAQ	Parent and related products	Reviewed; no fact invention
/collection	Category	Collection	Curated corporate gift sets	Commercial investigation	Strong	Category schema inherited	Welcome kits, clocks, keychains	Reviewed
/diwali-special	Campaign	Diwali campaign H1	Festive corporate gifts	Commercial investigation	Strong	Campaign metadata	Guides, hampers, enquiry	Reviewed
/diwali-special/hampers/:slug (3)	Campaign product	Hamper name	Diwali hamper	Transactional / enquiry	Strong	Product schema	Campaign and contact	Reviewed
/brands , /brands/:brand (12)	Brand	Brands / brand name	Available brands	Navigational	Adequate	Brand metadata	Brand pages	Reviewed
/blogs , /blog/:id (4)	CMS blog	Blog title	Varies by post	Informational	Database-copy dependent	BlogPosting	Blog listing	Review editorial content before changes
/blog/corporate-diwali-gifts-buying-guide-2026	Editorial guide	Guide title	Corporate Diwali planning	Informational → commercial	Strong	BlogPosting, FAQ, breadcrumbs	Tech, eco, collection, Diwali, contact	Reviewed

URL / route	Page type	H1 / title source	Primary topic	Intent	Content status	FAQ / schema	Internal links	Action
/blog/best-corporate-diwali-gifts-delhi-ncr-2026	Editorial guide	Guide title	Delhi NCR Diwali planning	Informational → commercial	Strong	BlogPosting, FAQ, breadcrumbs	Diwali, tech, eco, collection, contact	Reviewed
/locations, /:city/corporate-gifts (6)	Service-area	Location title	Corporate gifting in Delhi NCR	Commercial investigation	Adequate and differentiated	ItemList/breadcrumb	Collection and contact	Reviewed for doorway risk
/about	Corporate	About Printkee	Company information	Navigational / trust	Adequate	Organization inherited	Contact	Reviewed
/contact	Contact	Contact	Corporate gifting enquiry	Transactional	Strong	Contact metadata	CTA destination	Reviewed
/sitemap	HTML sitemap	Sitemap	Navigation	Navigational	Adequate	None	Core categories and pages	Reviewed

Non-indexable routes reviewed

/admin/*, /login, /customize, /customize/:productType, /search, /api/*, and /blogs/post are utility, private, or authoring routes. They are excluded through metadata and/or robots rules and were not given SEO content.

C. Content and linking changes made

Homepage — components/ShopByOccasion.jsx

Previous state	Change	Destination	Why
"Explore Kits" was a non-functional button	Linked CTA	/collection/welcome-kits	Connects employee-onboarding intent to the relevant existing subcategory
"Shop Hampers" was a non-functional button	Linked CTA	/diwali-special	Connects festive gifting intent to the seasonal commercial page
"Send a Gift" was a non-functional button	Linked CTA	/collection	Gives client-appreciation visitors a suitable curated-product route
"Browse Giveaways" was a non-functional button	Linked CTA	/apparel-and-accessories	Connects event and expo giveaway intent to a relevant product family

No paragraphs, claims, specifications, FAQs, prices, delivery promises, or product descriptions were added. Approximate words added: **0**; internal links added: **4**.

D. Content modified

No existing marketing copy was rewritten. This is intentional: category content already provides substantial B2B context, while product and CMS-blog facts are database-managed and should be edited with business approval.

E. Content reviewed and left unchanged

Area	Reason
Homepage service, industry, process, FAQ, and enquiry sections	Clear B2B positioning without a disruptive long-form rewrite
Category descriptions	Generally substantial, scannable below-listing copy with category-specific use cases
Product template	Uses actual database descriptions/specifications and enquiry CTA; no unsupported content added
Editorial Diwali guides	Distinct guide intents, useful FAQs, commercial links, and appropriate caveats
Location pages	Limited to six Delhi NCR areas and include distinct planning context; no mass-city expansion made

F. Keyword / topic map

Page group	Primary topic	Secondary topics	Intent / funnel	Related content
Homepage	Corporate gifting	Branded merchandise, bulk orders, employee/client/event gifting	Commercial investigation	All category routes

Page group	Primary topic	Secondary topics	Intent / funnel	Related content
Collection / welcome kits	Employee onboarding kits	Joining kits, branded gift sets	Commercial investigation	Homepage, collection, contact
Apparel	Branded apparel	Uniforms, event merchandise	Commercial investigation	Event giveaway CTA
Bags	Custom corporate bags	Backpacks, travel gifting	Commercial investigation	Product listings
Drinkware	Branded drinkware	Bottles, mugs, onboarding gifts	Commercial investigation	Welcome kits
Technology	Branded tech gifts	Power banks, desk accessories	Commercial investigation	Diwali buying guide
Eco products	Sustainable corporate gifts	Cork products, reusable gifts	Commercial investigation	Diwali buying guide
Diwali campaign	Corporate Diwali gifts	Hampers, employee/client gifting	Commercial investigation	Both guides, contact
Diwali buying guide	How to plan a corporate Diwali order	Budget, branding, delivery brief	Informational → commercial	Diwali campaign, collection, contact
Delhi NCR guide	Delhi NCR corporate Diwali gifts	Procurement, multi-location delivery	Informational → commercial	Diwali, collection, contact

G. Cannibalization report

Topic	Competing pages	Risk	Intended primary page	Fix / guidance
Corporate Diwali gifts	Campaign, buying guide, Delhi NCR guide	Low	/diwali-special for commercial product discovery	Guides are explicitly planning-led and link to campaign
Corporate gifting	Homepage, collection, location pages	Medium	/ for broad intent	Keep collection product-led and locations service-area-led
Employee welcome kits	Homepage card, collection, welcome-kits subcategory	Low	/collection/welcome-kits	Homepage now links directly to the subcategory
Event giveaways	Homepage card, apparel category	Low	/apparel-and-accessories	Homepage now links to product family rather than a duplicate page

H. Content gaps — recommendations for SEO team review

Priority	Topic	Suggested URL	Type	Intent	Existing conflict	Recommendation
Critical	Privacy policy / terms / shipping / returns	Existing legal URLs after approved copy	Trust/legal	Navigational	Footer currently points these labels to contact	Publish approved policy pages; do not invent terms
High	Employee onboarding kit guide	/blog/employee-onboarding-kit-guide	Guide	Informational → commercial	Welcome kits category exists	Publish only with approved process, product and fulfilment details
High	Bulk corporate gifting brief	/blog/corporate-gifting-bulk-order-guide	Guide	Informational → commercial	Homepage / contact support it	Explain how to prepare an enquiry, without promising MOQ or times
Medium	Client appreciation gifts	Consider collection filter/category only if real assortment exists	Commercial	Commercial investigation	Collection page already broad	Validate product coverage before creating a page
Medium	Conference and event gifts	Consider category landing only if product selection is distinct	Commercial	Commercial investigation	Apparel already supports giveaways	Do not create a page solely for keywords

I. Internal link report

See Section C. The four homepage cards are now contextual, crawlable links with descriptive labels. Existing editorial guides already link naturally to relevant category, collection, campaign, and contact pages.

J. Blog inventory

Article group	Main topic	Intent	Status	Commercial destination	Quality / recommendation
Corporate Diwali buying guide	Company Diwali gifting planning	Informational → commercial	Indexable	Diwali campaign, collection, contact	Strong; retain seasonal freshness review

Article group	Main topic	Intent	Status	Commercial destination	Quality / recommendation
Delhi NCR Diwali guide	Regional procurement and delivery planning	Informational → commercial	Indexable	Diwali campaign, collection, contact	Strong; distinct from broad guide
CMS blogs (4 current records)	Database-managed	Varies	Indexable	Must be reviewed per article	Add contextual category/contact links only where relevant

K. Category and product review

The public navigation contains 8 categories and 40 subcategories. Product pages use a single template and are populated from 234 active products. Product titles, descriptions, images, specifications, FAQs, and related products are database-driven. Product-level copy was not bulk-rewritten because doing so could change factual manufacturer information. The template has parent/related-product linking and an enquiry CTA.

L. Production and SEO actions still required

1. Submit `/sitemap.xml` in Google Search Console and inspect Coverage, Page Indexing, and canonical reports.
2. Review the four CMS blog records individually for word count, topical overlap, author/date accuracy, and commercial links.
3. Obtain approved policy, shipping, and returns copy before publishing genuine policy pages.
4. Validate redirect behaviour for HTTP, `www`, trailing-slash, and legacy URLs at the reverse proxy.
5. Use Search Console performance data—not assumptions—to prioritise the content-gap recommendations.
